

Dr. Catherine Bobek R2

Educational Background: I had the privilege to obtain my Bachelors of Nursing Degree at the University of Calgary. Followed by my medical degree obtained from The Medical University of the Americas. I have also pursued research at Queen's University Emergency Medicine Research Group. My research included investigations into syncope, TIA and traumatic brain injury.

Hometown: My hometown is in Calgary, Alberta.

Hobbies/Personal Interests: In the summers, I enjoy to cycle and in the winter months I enjoy spending time in the mountains downhill skiing. Cooking is one of my favourite hobbies and I feel that it allows me to express my creativity!

Research: My current interests include child psychiatry and first episode psychosis.

What would you like prospective applicants to know about our program?

The program is a very friendly and collegial environment and everybody works well together. There is a lot of support from residents and faculty. It's a great program and a great hospital to work in!

What is your greatest accomplishment?

Being courageous to go down the legendary a triple black diamond run down Goat's Eye mountain in Sunshine Alberta! And still being alive to tell the tale!!

What is your favourite sound?

I attending the many Kingston symphony orchestra performances!!

What is your most treasured possession?

My memories when traveling to different parts of the world.

If there was a movie produced about your life, who would play you and why?

In the past, I use to be actively involved in drama, in fact I have my very own Oscar from school! I would direct and play myself in my very own autobiographical film!

If you weren't a psych resident what other occupation would you do?

I would be a professional ski instructor on the Swiss Alps.
