Upcoming Rounds: Fri. Sept. 16 at HDH

Refreshments provided prior to presentation

LEARNING OBJECTIVES

Dr. D. Cabaniss: "Has Psychiatry lost its mind, or has Psychodynamics lost its brain: How cognitive neuroscience can help us find both"

Objectives:

After attending the presentation, participants will:

1. Have an increased awareness of Freud's interest in neuroscience
2. Have increased awareness of the way that current research in cognitive neuroscience informs psychodynamic theory and practice
3. Be able to incorporate ideas about neuroscience into psychodynamic teaching for trainees.
