“The Role of IV Ketamine in Treatment Refractory Mood Disorders”

Queen’s Psychiatry Grand Rounds is a self-approved group learning activity (Section 1) as defined by the Maintenance of Certification Program of The Royal College of Physicians and Surgeons of Canada

**Learning Objectives on reverse**

**Upcoming Rounds:** Feb. 15 & 22 - Grand Rounds

**A light lunch will be provided prior to rounds**
LEARNING OBJECTIVES

Drs. R. Chandrasena, J. Fairbairn & M. Anjum: “The Role of IV Ketamine in Treatment Refractory Mood Disorders”

Objectives:

1) Discuss the rationale and pharmacological properties of low-dose IV ketamine for use in treatment-refractory mood disorders
2) Review the evidence base for the role of ketamine in the treatment of mood disorders and suicidality

Department of Psychiatry Rounds are supported by education grants from the following companies:

Janssen, Inc.
Lundbeck
Otsuka
Sunovion
Pfizer
Shire

Thank you for your continued support!
