

Planning Committee:

Dr. Dianne Groll (Chair)
Dr. Rebecca Douglas
Dr. Emily St. Denis (Chief Resident)
Dr. Jamey Adirim (Chief Resident)
Dr. Felicia Iftene
Dr. Julia Kirkham
Dr. Muhammad Ayub
Dr. Gustavo Vazquez
Caroline Wallace

ACKNOWLEDGEMENT OF SUPPORT

We gratefully acknowledge the financial support from the following companies that have made the Research Conference possible:

- Queen's University Faculty of Health Sciences
- Otsuka Canada Pharmaceutical Inc.
- Allergan Inc.
- Sunovion Pharmaceuticals Canada Inc.
- Janssen Pharmaceutical

**DEPARTMENT OF
PSYCHIATRY**

RESEARCH CONFERENCE

Wednesday, May 30, 2018
8:15 a.m. – 4:20 p.m.

**DONALD GORDON
CONFERENCE CENTRE**

KINGSTON, ONTARIO

SALON B

Donald Gordon Conference Centre
421 Union Street
Kingston, Ontario

Tel: (613) 533-2221
Fax: (613) 533-2915
Email: dgc@queensu.ca

Conflict of Interest Disclosure

Faculty of Health Sciences policy requires speakers who may have a conflict of interest (i.e. pharmaceutical funding, etc.) to disclose such to the Faculty and to the audience.

Accreditation

Credits for Specialists:
This event is an Accredited Group Learning Activity (Section 1) as defined by the Maintenance of Certification Program of The Royal College of Physicians and Surgeons of Canada, and approved by Queen's University Office of CPD. You may claim a maximum of 5.25 hours (credits are automatically calculated).

Keynote Speaker

Dr. Gustavo Turecki MD, PhD

Gustavo Turecki is an internationally renowned clinician-scientist whose work focuses on improving our understanding of the clinical and neurobiological factors that contribute to suicide risk. He is the current Chair and Professor in the Department of Psychiatry at McGill, an associate member of the Departments of Human Genetics and Neurology, and an accomplished psychiatrist and neurogeneticist.

Dr. Turecki's laboratory is a world-leader in behavioural epigenetics and has produced several scientific breakthroughs, including the first publication showing that negative early-life experiences could act on the brain to increase the risk of suicide (McGowan et al. *Nat Neurosci* 2009; 2,500 citations). This discovery earned him and his colleagues several national and international prizes. He has authored over 400 publications and over 30 book chapters that, together, have been cited over 26,000 times. Among these, 5 have been published in Lancet-family journals, 16 in Nature-family journals and 57 in the top 5 psychiatry journals. His scientific contributions have been recognized through 27 research prizes, 3 training awards and 7 salary awards, and he has been a principal investigator (PI) or co-PI on over 65 successful research grants.

In addition to his scientific work, Dr. Turecki has fulfilled important local, national and international leadership roles in research, intervention and knowledge transfer in the field of suicide. He is the founding director of the McGill Group for Suicide Studies (MGSS), a multidisciplinary program that unites researchers in anthropology, psychology, epidemiology, and anatomy, who are experts in complementary fields including community intervention strategies, and clinical and genomic approaches, among others. The MGSS also includes a clinical service, called the Depressive Disorders Program, which offers care to patients with refractory major depression, as well as a unique international resource, the Quebec Suicide Brain Bank (now a part of the Douglas-Bell Canada Brain Bank), which Dr. Turecki founded. Every year, the brain bank sends over 1,000 brain samples to the best laboratories in the world.

Dr. Turecki's leadership in suicide research was recognized by the FROS, which mandated him to create the *Réseau québécois de recherche sur le suicide* [Quebec Network on Suicide Research] in 2009 (now the *Réseau québécois sur le suicide, les troubles de l'humeur et troubles associés* [Quebec Network on Suicide, Mood Disorders and Related Disorders]). This network supports the training of young researchers and encourages collaborative research among Québec researchers whose work focuses on the clinical, molecular, psychological, social, and ethical aspects of suicide and its associated factors,

such as depression and substance misuse. These roles, as well as his participation in a variety of national and international committees, have made him a key figure in depression and suicide research.

Program of Events:

8:15 – 9:00 Registration/Continental Breakfast
9:00 – 9:20 Opening Remarks/Awards

Break-out Room #1: Conference Room B

9:20 – 9:50	Efficacy of electroconvulsive therapy for unipolar versus bipolar depression: a systematic review and meta-analysis	A. Bahji <input type="checkbox"/>
9:55 – 10:25	Indian Hemp and Insanity: cannabis and psychosis in the 19 th century	O. Ayonrinde <input type="checkbox"/>
10:25 – 10:40	Nutrition Break/Posters	
10:40 – 11:10	Are we making the most of Clozapine? A Cross-Canada Survey	M. Feakins <input type="checkbox"/>
11:10 – 12:00	Facilitated Poster Session	
12:00 – 1:00	Poster Session/Lunch	
1:00– 2:00	Keynote Speaker – Dr. Gustavo Turecki	
2:05 – 2:20	Nutrition Break	
2:20 – 2:50	Physician Wellness in Canadian Medical Schools: Where do we go from here?	L. Flynn <input type="checkbox"/>
2:55 – 3:25	Risk of Dementia following Elective Surgery for Older Adults who Received General Anesthesia when compared to Regional Anesthesia	D. Seitz <input type="checkbox"/>
3:30 – 4:00	Mind the Gap – Identifying the lack of services for psychotic patients after the Early Psychosis Intervention	J. Pikard R. Dolp <input type="checkbox"/>
4:10– 4:30	Poster Award/Closing Remarks	

****Please check off one talk per time slot. This will ensure there are enough chairs available in each room***

Break-out Room #2: Conference Room C

9:20 – 9:50	Effects of a Forensic Community Treatment "At Risk" Program on Re-Hospitalization and Re-Incarceration Rates	T. Hassan <input type="checkbox"/>
9:55 – 10:25	Probiotics as a Novel Therapeutic in Clinical Depression	C. Wallace <input type="checkbox"/>
10:25- 10:40	Nutrition Break/Posters	
10:40- 11:10	Characteristics and outcome of children who suffered sexual, physical and emotional abuse: A single-center retrospective cohort study	R. Dolp <input type="checkbox"/>
11:10 – 12:00	Facilitated Poster Session	
12:00– 1:00	Poster Session/Lunch	
1:00– 2:00	Keynote Speaker – Dr. Gustavo Turecki	
2:05 – 2:20	Nutrition Break	
2:20 – 2:50	An audit to study antipsychotic prescriptions for insomnia in the mentally ill	I. Alfurayh P. Nadkarni <input type="checkbox"/>
2:55 – 3:25	Maintenance Pharmacological Treatment in Pediatric Bipolar Disorder: A Systematic Review	C. Yee <input type="checkbox"/>
3:30 – 4:00	Title to come	C. Soares <input type="checkbox"/>
4:10 – 4:30	Poster Award/Closing Remarks	

Registration Closes May 18, 2018
