**"Pharmacological  
interventions for antisocial  
personality disorder"**

Queen's Psychiatry Grand Rounds is a self-approved group learning activity (Section 1) as defined by the Maintenance of Certification Program of The Royal College of Physicians and Surgeons of Canada

**Upcoming Rounds:** Dec. 13 at PCH  
Jan. 10 & 17 at HDH

**A light lunch will be provided prior to rounds**

## LEARNING OBJECTIVES

Dr. N. Khalifa: “Pharmacological interventions for antisocial personality disorder”

### Learning objectives:

- Provide an overview of the literature on the prevalence and psychosocial impact of antisocial personality disorder.
- Understand the neurobiology of antisocial personality disorder.
- Explain the rationale for use of pharmacological interventions for antisocial personality disorder.
- Summarize findings from a Cochrane systematic review on pharmacological interventions for antisocial personality disorder.
