"Clinical Relevance of
Psychoneuroimmunology
of Bipolar Disorder"

Queen's Psychiatry Grand Rounds is a self-approved group learning activity (Section 1) as defined by the Maintenance of Certification Program of The Royal College of Physicians and Surgeons of Canada

Upcoming Rounds: Nov. 1, 8, 15 & 22 at HDH

A light lunch will be provided prior to rounds

LEARNING OBJECTIVES

Dr. Vladimir Maletic: “Clinical Relevance of Psychoneuroimmunology of Bipolar Disorder”

Learning objectives:

1. Describe central and peripheral immune changes in context of bipolar disorder
2. Discuss changes in CNS function related to immune alterations in bipolar disorder
3. Outline relationship between immune changes, symptoms of bipolar disorder and frequent comorbidities
4. Explain the relevance of immune changes for treatment of bipolar disorder
